time.) Judge Gresham said to me that he had just heard the highest compliment paid to a public man, by one of the great lawyers of the country, that it was possible to pay to any man. He said Judge Cooley had just called on him on his way home from Washington, and that in discussing the features of the new law he (Gresham) had made inquiries as to the personnel of the commission, and particularly asked about Colonel Morrison. Said Judge Cooley: 'Judge Gresham, Colonel Morrison is a great man, a man of modesty, and merit. Of him I would say, in illustration of my admiration of the man's montal and moral qualities, that in my long career as a lawyer I have worked hard and given all my time to the profession, and have written some law books that my professional brethren have accepted in a complimentary way, and who have told me my services on the bench were quite satisfactory; but I would gladily exchange all these fistering results for that man Colonel Morrison's common sense."

"That is about the language used to me by Judge Gresham, and I have never seen the story published."

SMOKE ABATEMENT ORDINANCE BEATEN.

City Council Votes Unanimously Against Measure Passed by the House of Delegates.

The smoke abatement bill, which was passed by the House of Delegates in the early part of the present week, was defeated in the Council yesterday by the unanimous vote of that body. An unfavorable report was made upon the measure by Councilman Gibson of the Committee on Sanitary Affaire, Mr. Gibson stated that the committee is

in favor of smoke abatement, but that complish the reform would be unavailing declared void by the Supreme Court of Missouri on the ground that it exceeded the authority granted in the City Charter. authority granted in the City Charter.
City Counselor Schnurmacher was requested by the Committee on Sanitary Affairs to deliver an opinion on smoke abatement ordinances in St. Louis. Mr. Schnurmacher stated that there is a valid smoke abatement ordinance. He advised, however, that no new ordinance be passed until after June 15, on which the smoke abatement law passed by the Missouri Legislature will go into effect.

The Citisens' Smoke Abatement Association met at the Mercantile Club yesterday afternoon to take steps to renew active

SECOND BIG SALE OF WEST END PROPERTY.

Tract Known as Berlin Heights Purchased by the C. R. H. Davis Real Estate Company.

CONSIDERATION WAS \$250,000.

Growing Demand for Residence Property-Burlington Depot for North St. Louis-Washington University Building Plans.

An important real estate deal was close vesterday when the Nicholis-Ritter Real Estate Company, on behalf of the Berlin Heights Realty Company, sold the entire tract known as Berlin Heights to the C. R. H. Davis Real Estate Company for \$250,000. The tract is bounded by Taylor avenue or the east, Berlin on the south, Euclid on

the west, and McPherson on the north. The tract is one of the most desirable esidence sections of the city, and its sale, following so closely after that of the Catlin tract, is regarded by real estate men generally as an indication of the demand for high-class residence property caused by the World's Fair. Its aggregate frontage, on the various streets by which it is in-tersected, amounts to 3,700 feet. The prop-erty formerly belonged to the Christian Brothers, and was sold one year and a half ago to the Berlin Heights Realty Company. It was entirely unimproved at the time, and, after paying \$150,000 for the property, the Berlin Heights Company ex-pended \$50,000 in grading and making property, the Berlin Heights Company ex-pended \$50,000 in grading and making streets. The property was then offered for sale by the Nicholis-Ritter Company. Three lots in the property have already been sold, one to Jesse L. Boogher, and two to Mrs. Jessie L. Ray. The Berlin Heights Realty Company, former owners of the property, is composed of Thomas H. West, Robert McKittrick Jones and J. D. Filley.

of the property, is composed of Thomas H. West, Robert McKittrick Jones and J. D. Filley.

The south side of Berlin avenue is improved with many handsome residences, the homes of M. H. Benoist, Charles H. Lindenschmidt, Edward Gould, M. C. Luyties, Louis Idier, F. K. Fitzgibbon, Adolph Moll, W. W. Candy and W. Davis Pittman.

At present the frontage of the Berlin Heights tract is as follows: On Berlin avenue, 1,000 feet; Mencherson avenue, a private street running through the place, 1,509 feet; McPherson avenue, 1,000 feet; Walton avenue, 200 feet. The C. R. H. Davis Real Estate Company will complete the improvements already made in the place and will put up gates on the center street, which will hereafter be called Lenox place. Several dwellings will be erected on the property, three having already been commenced on McPherson near Walton.

The Nicholls-Ritter Company has handled some of the largest deals in real estate property made in this city during the last liteen years, having sold Forest Park place, just north of Portland place, for \$450,000, and North Park place for \$250,000, and North Park place for \$250,000. Included in the sale is the entire tract of ground known as city block No. 277, with the wharfage and the elevator which was burned last month. The site has a frontage of 145 feet on Biddle street, 448 feet on Lewis street, and 283 feet on Ashley street. It was mentioned in connection with the sale that a building would in all likelihood be erected on the site shortly by the purchaser whose name is not yet known.

Burlington Depot for North Side. It is believed that the Burlington Railroad will erect a station at the foot of Grand avenue near Broadway. The North St. Louis Citizens' Association

The North St. Louis Citizens' Association is earnestly advocating such a depot in North St. Louis, and James Maccallum, secretary of the organization, stated that the management of the road had expressed a willingness to erect a depot on East Grand avenue, if the Transit Company would run its line down to the station. The advantages of such a move would be so great for the North Bide, said Mr. Maccallum, that he believed public sentiment would soon demand a station there. He also expressed his belief that the vacant wharfage near the Merchants' bridge would soon be occupied by manufacturing firms, attracted here by the World's Fair.

The association is opposing the bill recently introduced to permit the laying of steam railroad tracks up Mulianphy street to Eighteenth. The district is so crowded that it is feared a second "bloody half-mile" of the Poplar street order will result when the tracks are laid. The bill to permit the laying of tracks on Collins street, however, is indozsed by the association, as it is believed that the manufacturing interests of the city will be benefited thereby.

It is predicted that there will be a great revival in North St. Louis manufacturing sites shortly. The building of small structures is being carried on throughout the North End rapidly, and several deals which are said to be pending are expected to result in the establishment of manufacturing plants.

The increase in the amount of building permits recently has been remarkable, es-cotally in the case of small residences and fats. Last Wednesday the building permits for flats and small residences amounted to \$64,000, and Thursday to \$85,000. The aver-age of last month was much higher than that of the corresponding month last year in the amount of permits.

in the amount of permits.

The street improvement decision of the Supreme Court of the United States is expected to result in widespread benefit to St. Louis property. Many hold that one reason for this city's low average in real estate prices herstofore, considering its size, has been sutirely due to the widespread reputation of the bad streets here. The taxition of property owners to amend this condition is regarded as a move sure to be beneficial.

dition is regarded as a move sure to be beneficial.

Considerable interest is attached to the efforts of mambers of Battery A to get their building on Grand avenue and Rutser street in readiness for the World's Fair. The building will cost about \$100,000 when fully completed, and an appropriation for the purpose has been saked for.

The question of new city institutions is so indefinite that the matter excites less interest than it would otherwise. The lease of the present quarters of the City Hospital is regarded by many real estate men as about the best thing that could be done as a matter of economy until the completion of the new City Hospital, but the question of the other institutions is looked at in different ways as regards the location of the structures.

Washington University Buildings.

Washington University Buildings.

Washington University Buildings.

In the course of the next few weeks there will be great activity on the Washington University cite, near Forest Park. To-day the ground-breaking for the site of the new Mary Institute building, at Lake and Mc-Pherson, will take place. This will be the first celebration incident to the new buildings.

Next Saturday, May II, the corner stone of Cupples building No. I will be laid. This building will be devoted to electrical engineering and architecture. Two weeks later the corner stone of Cupples building No. I will be laid. This building will be first corner stone of Luggest Hall. the first dormitory ever erected by Washington University, will be laid. The laying of all the corner stones will be accompanied by special ceremonies.

The bill to improve Union Station by the establishment of a park was referred back to the Board of Public Improvements yeaterday by Street Commissioner Varrelmann. The board appointed May M. It a. m., as the date sand time when a public hearing will be given in the Board of Public Improvements office.

Besides the sale of the Berlin Heights property, the Nicholls-Ritter Company report the sale yesterday of the residence No. Improvements office.

Besides the sale of the Berlin Heights property, the Nicholls-Ritter Company, for M.50, on behalf of O. F. Humphrey. The residence is one of aix houses being built by Mr. Humphrey, immediately opposite six residences recently erected by him on the north side of the street. All of these completed houses were sold by the Nicholls-Ritter Company.

Nineteen lots only remain of this sub-division, and Henry Hiemens, Jr., will sail them to-day for what they may bring to close out this tract. The lots front on Magnolia, Tennessee and Arkanses avenues and on Sidney street, one block north of Tower Grove Park and one block east of Grand avenue. The sale will offer a chance

AUCTION OF UNIVERSITY PLACE.

AUCTION OF UNIVERSITY PLACE.

Property to Be Divided Into Lots and Deeds Delivered July 1.

Directors of the newly formed University Place, formerly the Catiin tract, met yesterday and decided to divide the property into lots and to sell them at auction May 25. It was decided not to deliver the deeds of the property until July so that special clauses as to restrictions could be inserted according to the location of the World's Fair.

The Fair location will determine whether the property is to be a strictly residence section or a business district. Before the sale it will be announced that should the Fair site be chosen north of Page boulevard or south of the Mill Creek Valley, the district will be reserved strictly for residences with price limitations. Should the Fair site be chosen within that district, the purchaser will have the privilege of erecting business houses.

Alternate lots will be sold and every purchaser, should he so desire, will be given the option on the lot adjoining his purchase at the same price that he paid for his own lot, for four days. Deeds for the lots will be made out July 1, by which time the Fair site will have been chosen. The nature of the deed will be determined by the location of the Fair.

Should the Fair be located outside the district mentioned, the residence restriction clause will immediately go into effect. It has been decided to continue Westmoreland place must cost not less than \$5,000, and those on Lindell Terrace lots will be 80x150 feet. On Lindell Terrace lots will be 80x150 feet. On Lindell Terrace lots will be 80x150 feet. Houses to be erected in Westmoreland place must cost not less than \$5,000, and those on Lindell Terrace lots will be sox150 feet. The continuation of Westmoreland place will be made with brick streets, granitoid curbing, guttering and sidewalks and gas, water and sewers will be installed immediately. Jacob avenue and Belt avenue will be extended through the tract to Lindell Terrace.

be extended through the tract to Lindell Tarrace.

Heretofore the management of Bell place has objected to the continuation of Bell avenue through the property, but since the University place association has agreed to continue the street through, it is believed that the Bell place management will do likewise. The class of residences expected for the new tract will be of a high order, as the limit for the continuation of Westmoreland is but \$4,000 less than the limit for the Westmoreland place tract east of Union boulevard.

The opening of Belt avenue will open up in turn a large strip of property along Westmoreland place. The sale will be handled on May 25 by the real estate department of the Lincoln Trust Company.

VICIOUS DOGS CAUSE TROUBLE. Several Attacks Made on Children

by Canines. Gertie McGinness of No. 2107 Market street and Josie Hudson of No. 3 North Twenty first street were attacked by a vicious n front of No. 2113 Market street yesterday norning. Gertie McGinness was bitten o he right leg and on the right side of the body. Josie Hudson was bitten on the left wrist. They managed to beat the dog off with a stick and ran to the office of

off with a stick and ran to the office of Doctor Penny at No. 200 Market street, where their injuries were dressed and pronounced not serious.

Oscar Harper, 3 years old, of No. 2117 South Seventh street was bitten in the left leg by a dog owned by Fred Holdemann of the latter number.

Policeman Dundon of the Central District killed a victous buildog which created considerable excitement by bitting several persons in the vicinity of Twenty-first and Market streets yesterday morning. The dog was owned by George Doen of No. 2115 Market street.
